AVIOGUM

Natural rubber based solvent adhesive

CHARACTERISTICS

Natural rubber based adhesive	METHOD	QUALITY CHARACTERISTICS (U.M.)
Appearance and Color	Visual	Opalescent
Viscosity	IO 07/42.10	8.000 – 9.000 cps
Time open	IO 07/42.6	At room temperature about 2 hour
Specific weight	IO 07/42.3	0,650 – 0,700 g/cc
Dry content	IO 07/42.4	13 –16%

USES

Aviogum is a natural rubber-based adhesive particularly suitable for seams; thanks to the rapid drying, good tackiness and non-aggressiveness towards the finishes of both synthetic and natural materials. It is indicated in the construction of uppers and in small leather goods.

INSTRUCTIONS FOR USE

Apply by brush or spreading machine on one or both surfaces to be glued, couple immediately and exert a slight pressure.

STORAGE

The product should be stored in the original packaging at room temperature (5-35°C). In these conditions it remains suitable for about 12 months.

Particularly low storage temperatures lead to a considerable reversible thickening of the product and, consequently, a more difficult distribution. Shake well before use.

PACKAGING

Metallic Containers Kg. Net 4 – 13 - 40

NOTES

Aviogum is highly flammable: make sure that the systems used for handling are correctly grounded to prevent the accumulation of electrostatic charges.
